

Experience the Spirit of King's

Dr Stephen Burley, Head Master of King's High, Warwick, explores what excellence looks like in preparation for Higher Education.

"At King's High we pride ourselves on offering the highest quality preparation for the myriad post-18 pathways of our students, whether that is an application to Oxbridge, Russell Group, Medicine and Overseas Universities, or to music and drama school, or apprenticeships and degree apprenticeships.

"Our Inspire Higher Education Programme has been very important in enhancing our students'

preparation for competitive university places and we also connect them with a Personal Statement Tutor or an Oxbridge Mentor to offer bespoke and tailored support for their applications.

"At King's High we have seen a 22% rise in the number of our students gaining places at their first-choice university in recent years. Around 80-90% of our Upper Sixth cohort achieves this each year, with around 80% moving on to prestigious Russell Group universities and 66% of all A Level grades awarded at grades A* or A.

"So, what does excellence look like? – I think that this, ultimately, comes down to a school's agility and flexibility in responding to the exceptional and exciting variety of student interests. At King's High we offer excellence in all that we do, and our Higher Education preparation, and successes of our students, whichever pathway they choose, are strongly based on the excellence of the preparation that they enjoy."
